This year in lieu of free attendance for chemists and manufacturers, these funds have been put towards a **PREMIUM PRIZE** to be raffled off to attending chemists and manufacturers to thank them for joining us.

### **Program this month:**

We are honored to have the following two speakers:

**SPEAKER: Linda Adamson**

**TOPIC: Formulating Low VOC for the Architectural Market**

### **Abstract**

This virtual presentation will provide the coatings formulator an overview of the ongoing research and development efforts to address the needs of the industry regarding VOC regulations across the US as it applies to the architectural segment. Emphasis will include R&D efforts, along with some insights into formulation work, and will highlight new binder developments.

### **Bio Sketch**

Linda Adamson received her B.S. degree in Chemistry from Philadelphia College of Textile & Sciences, now known as Philadelphia University. She has worked for Rohm & Haas (Dow Chemical) for over 30 years at the Research facility in Springhouse, Pa. From 1980-1996, she worked in the Architectural Coatings Research department, primarily focusing on projects related to binder technology and development. In 1996 she transferred to the Coatings Technical Service Department, where she primarily supported new Semi gloss binders for the interior and exterior marketplace. Her current responsibility in the Paint and Coatings Material Group is to lead the applications effort for Technical Service for Architectural Wall Coatings and Masonry market segments along with Research and Development projects for the Low VOC Market.

### Second Speaker

**SPEAKER:** This special presentation will to be given by our CSCT's very own George Goodwin

**TOPIC:** Safe Driving and Driver Practices

This presentation will focus on tips for all ages. The majority of our membership relies on the automobile to let us do our job and we all could use a little refresher on some of the things we have learned in the past but might need a little reminder.

### **New Members**

The Membership Chairperson is proud to present the following individuals for their first reading for membership in compliance with the Standing Rules of the Chicago Society for Coatings Technology:

**Kimberly Koenig - Nexeo Solutions.**

**Brad Pentzien - The Hallstar Company**

---

### **SCHOLARSHIPS**

It's not too early to begin thinking about the spring scholarship awards for your child or grandchild. Each year the CSCT gives away \$2,000 Merit Awards to children or grandchildren of current CSCT member that are pursuing an education in a physical science. And along with the CPCA, we give away thousands more to children of current CSCT or CPCA, regardless of their course of study.

**Applications are available on our website at [www.chicagocoatings.org](http://www.chicagocoatings.org).**

**Application Deadlines: March 1, 2012 (Merit) and April 1, 2012 (Joint)**

*Recipients will be announced at our April 2012 meeting*

---

### **25 YEAR CLUB**

What were you doing 25 years ago? If you were a member of any Society for Coatings Technology 25 years ago and are now a member of the CSCT you may qualify for the CSCT 25 Year Club. However, we need to know who you are. **Call or write:** *Evans Angelos, 417 Naperville Road, Clarendon, IL 60514; (630) 323-6474; [evansangelos@comcast.net](mailto:evansangelos@comcast.net).*

**Coatings Trends & Technologies Conference****CALL FOR PAPERS**

Papers are being accepted through March 16<sup>th</sup>

**Speaker proposals are being accepted for Coatings Trends & Technologies Conference being held September 11-12, 2012 in Oak Brook, IL.**

Coatings Trends & Technologies is a two-day event that provides a resource-rich environment where attendees gain the most current technical knowledge that will help them in their coatings formulations, as well as connect with key suppliers in an interactive exhibit hall and network with coating professionals

**Accepting papers covering the following topics:**

Renewable Technology  
Resins and Polymers  
UV-curing Technology  
Pigments/Extenders/Colorants  
Calibration Standards  
Improvements in Adhesion  
Legislation and Regulatory Issues  
Mixing/Milling  
Nanotechnology  
Solventborne Systems  
Accelerated Weathering  
Coatings (Architectural, Industrial, Marine Automotive, and Powder)
