President's Letter 2004

John Cox • SHERWIN WILLIAMS

To represent the CSCT as your President for the year 2004-2005, I'm honored. My sincere gratitude to all of our members for their support this past year. The CSCT will continued to move forward with your support throughout this coming year. The CSCT encourages you to attend our Technical Programs and participate in the activities this next year. Remember our events provide you the opportunity to network with your fellow colleagues and meet new friends. Also, the changing business environment, economy and people, your participation is vital to the Chicago Society's (CSCT) as well as the Federation Society's (FSCT) future.

Summary of 2003-2004 :

Golf & Tennis Outing - 2003 : Our annual Golf &Tennis was again held at St. Andrews Golf Course and Forest View Racquet Club. Over 210 Members and Guests participated, followed by Dinner with Awards. The CSCT sincerely thanks the 31 Suppliers, distributors, companies and members for their generous contributions. Thanks to the members of the Golf/Tennis committee who were responsible for this event.

Dinner Meetings : Stevens Steak House, Elmhurst, Illinois was the venue for our monthly Technical meetings. Experts gave presentations on Polymers- Johnson Polymer, Additives - ByK Chemie, Resin Technology - Lyondell Co., Solvents - Eastman Chem. and Efka Additives. In October we had a Technology Showcase with 27 Suppliers and in February we held our 2004 SYMCO Symposium at Drury Lane.

Holiday Party : The joint CSCT/CPCA Holiday Party was held December 5 th 2003, at Marriott Oak Brook Money raised went to the joint CSCT / CPCA Education Scholarship Fund.

Technical Committee : Under the leadership of Arron Strepka and Dr. Brian Hanrahan the CSCT will present a Paper at the ICE Show 2004.

Education Committee : The CSCT/CPCA awarded two \$2000.00 Merit Scholarships. Bill Arendt, son of William Arendt - Velsicol Chem. and Sara Schlichting, daughter of James Schlichting - Abbott Labs. **I would like to asked that the past winners of our Scholarship Program - Please take the time to update the Society about your progress in Life.**

Awards Banquet : This year was at Wyndham Northwest Chicago Hotel - May 7th - We will return to the Drury Lane Friday, May 14 th 2005. Appreciation Awards were given to Tony Tortorello for Member At-Large. He has been a great help on our Board. Both Guy Lopez and Russ Heinzinger for their work as Co-Chairs on SYMCO 2004. A logo CSCT clock was given to all CSCT members attending - As well as a Mother's Day Gift (one rose) to each Lady attending.

The CSCT looks forward to meeting you this next year - Either at our Outing - JULY 26th or our Dinner Meetings.

Sincerely ,

John N. Cox

CSCT President 2004 - 2005

Warren C. Ashley

Past President of CSCT 1954-1955
 Date of Birth: December 25th, 1904
 Entered Into Rest: March 29th, 2004

From 1961:

Warren C. Ashley, a native of Yorkville, Illinois, received his early education under the tutorship of his father and the local country grade school. He attended Yorkville Consolidated High School, taking part in sports as tackle on the football team and graduated with the honor of being Valedictorian. Passing up scholarships, he chose to attend the University of Illinois, where "Red" Grange was playing football, and graduated with honors from the college of Education in 1929.

Warren attained his Master of Science degree from the University of Illinois in 1930 and accepted a Research Fellowship at Iowa State College under Henry Gilman in 1931 working on Furfural, a chemical obtained from corn cobs. Turning down a Teaching Fellowship at Iowa State, he returned to the University of Illinois to work under Ralph Shriner and received the degree of Doctor of Philosophy in organic chemistry with minors in physical chemistry and physics. It was during the latter period that he had his first experience with plastics while doing part time work for F. C. Huyck and Sons on methods to prevent felting of wool. While at the University he made various organic compounds including orthophenanthroline, a new indicator for iron, and a series of compounds to test the theory of hydrogen bonding.

During the summer of 1934, Warren worked for the Eastman Kodak Company in their synthetic chemical department and in 1935 began work at the Battelle Memorial Institute, Columbus, Ohio, where he remained until 1938. At the Institute he set up the organic Chemical Department, specializing in plastics and produced a foamed urea resin, perhaps the first of the light weight foamed plastics.

In 1938 Warren came to his present employer, Pyroxylin Products Inc., as a chemist. Here he has spent fruitful years of research and development including work on formulation of heat seal and non-heat seal moisture vaporproof lacquers for paper and formulas for strippable lacquers developed during World War II. At present he represents Pyroxylin Products Inc. as a Technical salesman.

The Chicago Society for Paint Technology has been served well by Warren over many years as a member and an outstanding officer, as shown by his enviable record of achievements. Over the years he has been chairman of the following Society Committee: Membership, technical for two years, Standards and Methods of Test (three years), Publicity, Program, Outstanding Service Award, Nominating, Yearbook, Executive and Golf Outing. His Technical Committee won first prize with the research paper "Comparison of Recently Developed Plasticizers for Nitro-Cellulose" at the war time Federation Annual Meeting in Chicago in 1945. Warren also won the George B. Heckel Award for the best presentation of this paper. The second part of the paper was presented by his committee at the Atlantic City convention in 1946.

Warren held all elective offices of the Chicago Society, being President, 1954-1955 and for the past three years has been the alternate Federation Council Representative. During his tour as officer of the Society, Warren has inaugurated or has been instrumental in the adoption of many innovations that have added to the prestige and betterment of the Society. Time will not permit listing all these, but to point out a few, ...
