**John Jury • Wacker Polymers • Classic Polymers with a NEW VISION**

Vinyl resins have a long history when it comes to coating formulation. John Jury will discuss the properties, benefits, traditional and new applications of the Polyvinyl Butyral, Vinyl Chloride Co & Terpolymers, and Polyvinyl Acetate Solid Resins as it pertains to helping the coating formulator achieve optimal coating performance to meet the needs of their customers.

John Jury is currently the North American Sales, Marketing and Distribution Manager for Wacker Polymers Functional Polymers business unit. John has been with Wacker for 8 years in which he spent 3 ½ years working in Burghausen, Germany as a Global Marketing Manager.

Previous to coming to Wacker, John was a Technical Sales Manager for Hall Technologies, a specialty distributor, in St. Louis covering MO, IL, IA and IN. He also worked in Sales and Technical Service for Morton International (Bee Chemical) in the Automotive and general industrial coatings sector dealing with both the U.S. auto manufactures as well as the Japanese transplant companies.

He started his career as a Fluorescent Pigment chemist with Lawter International and branched into work with resins and alkyds.

John graduated from St. Norbert College in DePere, WI with a B.S. in Chemistry. He has been married to Colleen (born and raised in Northern Ireland) for nearly 15 years. They have two children, Kiera and Sean.

John grew up in Antigo, WI and is a true CHEESE HEAD. He is an avid Packer fan and his worst day on earth was when the Bears won the 1985 Super Bowl.

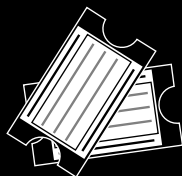

**Dr Jean-Luc Dallons • Cardolite Corporation • Renewable Raw Material Brings Faster Curing**

A renewable natural raw materials, cashew nutshell liquid (CNSL) is used in the synthesis of a unique type of epoxy curing agent known as a phenalkamine. While providing outstanding protection and tolerance to poorly prepared surfaces, phenalkamines cure epoxy resins very fast and allow coatings to cure at very low temperatures. Phenalkamine based epoxy coatings are used successfully in the shipbuilding, metallic construction and commercial vehicle manufacturing industries. He started his career as a Fluorescent Pigment chemist with Lawter International and branched into work with resins and alkyds.

PhD in Chemistry, option Heterogeneous Catalysis at University of Louvain (Belgium) • Research Scientist with UCB Chemicals (Hydrogenation reactions and polyesters for Powder Coating) • Technical Service and Marketing Management for Powder Coatings with UCB Chemicals • Senior Associate in Marketing Consulting with Kline & Company • Global Marketing Manager with Cardolite Corporation • Owner of patents on Hydrogenation Catalyst and Polyester synthesis for powder coatings • Author of different papers on Heterogeneous Catalysis, Powder Coatings, and Protective Coatings • Speaker at different International Conferences on Coatings.

### SCHOLARSHIP INFORMATION

Note: There are separate applications for each of the two types of scholarships.

**A. Joint CPCA/CSCT Scholarship.** College scholarship applications are now available for a child of a current member of the CPCA or the CSCT. To be eligible, the student must be in good standing at the school they are attending.

Applications are available from Mark Leverone: (630-665-3085); [mark@thhilson.com](mailto:mark@thhilson.com) or at [www.chicagocoatings.org](http://www.chicagocoatings.org).

**Applications must be received by March 30, 2007.**

**B. Merit Scholarship.** The CSCT is pleased to announce that Grant In Aid applications are now being accepted for a \$2,000 scholarship award for a student majoring in math, computer or physical science. Current membership for a minimum of 2 years allows a CSCT members' child to apply for the Grant In Aid.

The recipient should be either a high school senior or undergraduate student, who has an excellent academic performance and dedicated service to their community. The criteria for selecting the winners are letters of recommendation, course transcripts, and an essay.

Applications and other documentation is available from Thor Jondahl, Ph.D., Phone (630-681-7102) and FAX (630-681-7199), [Thor.Jondahl@inxintl.com](mailto:Thor.Jondahl@inxintl.com), or at [www.chicagocoatings.org](http://www.chicagocoatings.org).

**Application deadline is March 9, 2007. No Exceptions.**

### Proposed bylaw change:

B. Executive Committee

The Executive Committee shall consist of the Officers, the two most recent eligible Past-Presidents, Society Liaison, and two "At Large Membership Representatives". If a CSCT member is elected as a FSCT Director, the CSCT Executive Committee may choose to appoint the FSCT Director to serve as a voting member on non FSCT issues to the CSCT Board for the full term of his or her office. This appointment shall be made by a majority vote of the Executive Committee.
